

Written Examination

Power Electronics

Prof. Dr.-Ing. Alfons Klönne

The written examination takes place on:

**Monday, 15th of February 2016
from 08:00-10:00 a.m.**

in Building 11.10, EAS Room No. 107.

Deadline for registration as well as for the cancellation of the registration is one week before the exam (which is the 8th of February 2016).

Please sign in within the time given for the exam online via the Studierendenportal. If online registration is not possible, you have to sign in in the registration list, which you find in our secretariat (IEH, Building 30.36, Room No. 212).

Please note the following points:

While taking examinations, students must be registered at KIT.

For the majority of examinations, students enroll online using the Student Self Service facility ("Studierendenportal").

If enrolment in the Faculty/Department is necessary, students must produce the following documents (either on enrolling or on the day of the examination, depending on the examiner):

- Exam Admission (blue form/Master, white form/Bachelor)
- Student ID
- Proof of KIT-registration ("Immatrikulationsbescheinigung", to be printed out from the Student Self Service facility)

If students can't produce these documents, they can't take the exam. There is no exception to this rule.

The semester that an examination belongs to depends on the time of the corresponding lecture. The examination period for a semester ends six weeks after the beginning of the following semester (12^h of May 2016 for the winter semester 15/16).

This means that students leaving KIT may take examinations up until that date.

Karlsruhe, 25th of January 2016
